Student Assessment of their Learning Gains (SALG)

Faculty teaching evaluations — Everyone uses them, nobody likes them.

▼ Now you have an alternative

Quick and easy.
Online use.
Greater accuracy.
Statistical results.

Just visit the SALG Website.

http://www.wcer.wisc.edu/nise/cl1

The SALG instrument was originally developed for and tested by participants in the NSF-funded ChemLinks and ModuleChem Chemistry Consortia, with additional financial support from the NSF College Level One Team. Development of the SALG Website and testing of the Web-based instrument were funded by the ExxonMobil Education Foundation.
